

You will be assigned one of the following decades: 1920s, 1950s, 1960s, 1970s, 1980s, 1990s

Collect the following information about your time period and prepare a google slides presentation. Each person will be responsible for at least 1 item from the list below.

1. Clothing trends/fads
2. Popular music of the time
3. Important events/ social movements
4. Statistical information: high school graduation rates, college graduation rates, average family size, average family income, unemployment rates, average age of childbearing for males and females, average life span, national population, etc.
5. Cost of living: how much did average things cost during your decade? (Ex: homes, cars, milk, bread, household appliances, etc.)
6. New medical developments
7. New technologies that changed the average way of life
8. Popular movies
9. Popular television or radio programs
10. Language- popular phrases/slang
11. Random facts about your decade (be appropriate)
12. Famous people who were prominent during your decade- be sure you can explain why!

Chapter 3 section 1 discusses American values. Which 3 values were most important during your decade? Use the information you've researched to support your claim. Include this at the end of your presentation.

Google slides: - Use photos, not words! You should have minimal text on each slide.

You may use text for a subject heading on the slides, but you should explain and keep eye contact
